

Quiz 2: Tufte and Wilkinson

1. Define or provide three examples of "chartjunk" according to Tufte (2001).

2. Define the Golden Rectangle. How does it apply to graphics according to Tufte (2001)?

3. Give one example each of a mathematical, statistical and multivariate variable transformation (Wilkinson 2005, Ch.4). For each example transformation, provide a one sentence explanation of why you would use it.
